

WHAT IS CLAIMED IS:

- 5 1. A prosthetic foot assembly for a lower limb amputee, comprising:
a prosthetic foot for attaching to a socket or pylon of the lower limb
amputee, comprising:
a lower foot plate including a symmetric toe configuration and a
plurality of slots formed therebetween;
an upper ankle plate having a length substantially shorter than
said foot plate;
an ankle block having a wedged configuration and comprising a
compressible material sandwiched between said foot plate and said ankle
plate; and
an outer cosmesis having a length approximately equal to the length of a
natural human foot and having an anterior toe region including a slot
substantially aligned with one of said slots of said foot plate.
- 10 2. The prosthetic foot assembly of Claim 1, wherein said cosmesis further
comprises a reinforcement patch in said toe region.
- 15 3. An outer foot cosmesis having a length substantially the same as that of a
natural human foot, comprising:
an inner cavity for receiving a prosthetic foot for attaching to a socket or
pylon of a lower limb amputee;
a toe portion comprising at least one slot for receiving a thong of a sandal
or other footwear; and
a reinforcement patch in said toe portion for improving the wear
resistance of said cosmesis.
